Art Unit: 3751

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Amended claim 1 is generic to both locations of spring 60, between the retainer 61 and the bottom of recess cavity 25 as shown in elected figure 1, and between the retainer and the valve guide as shown in figures 6 and 7 and called for in claims 8 and 19. The embodiment of Figure 6 also discloses the location of the fluid film gap to be between the retainer and the valve guide which is the same location as in figure 1 and as called for in amended claim 1. Consequently the restriction requirement between figures 1 and 6 is withdrawn and claims 8 and 19 which are specific to figure 6 are allowed. Claims 13, 14 and 20 define a two piece retainer with the fluid film gap located between retainer pieces. This is specific to the figure 7 embodiment. Amended claim 1 is not generic to figure 7 because it places the gap between the valve guide and the retainer wherein claims 13, 14 and 20 do not place the gap adjacent the valve guide. The restriction requirement between figures 1 with 6 and figure 7 is made final.

The application has been amended as follows:

2. This application is in condition for allowance except for the presence of claims 13, 14 and 20 directed to a species non-elected without traverse in the response of 3/14/2006. Accordingly, claims 13, 14 and 20 have been cancelled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Casimer Jacyna whose telephone number is 571-272-

4889. The examiner can normally be reached on Wed. thru Fri. 9AM-7PM, Mon. 7AM-1PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on 571-272-4835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
